If you have a work-related injury, you must visit one of the listed health care providers for 90 days from the date of your first visit. If, after 90 days, you still need treatment, and your employer provided a list as set forth above, you may change providers. Your bills will be paid if: 1) You notify your employer of this action within five days of your visit to the provider of your choice; and 2) Your chosen provider files reports within 21 days after your first visit and at least once a month for as long as treatment continues. If one of the providers listed above refers you to another licensed specialist, your employer or his insurer will pay for these services.

If you have a medical emergency, you may secure assistance from a hospital, physician, or practitioner of the healing arts of your choice. If your employer does not provide a list of Designated Licensed Health Care Providers, you may go to a licensed health care provider of your choice.

REMEMBER, IT IS IMPORTANT TO TELL YOUR EMPLOYER ABOUT YOUR INJURY!!
