

## Participating Providers – Wellspan EAP

To schedule an EAP appointment in the south central Pennsylvania region, call a participating provider location directly.

**IMPORTANT** - When you call the office of your choice, please tell the provider's office you want to use your EAP benefits through WellSpan Employee Assistance Program.

\* You do not need health insurance coverage to use your EAP benefit. However, some individuals choose to continue with counseling billed through their medical insurance coverage after using their EAP sessions.

\* If you have health insurance, you should ask the provider's office if they participate with your health plan.

To arrange WellSpan EAP services anywhere outside of south central Pennsylvania, please call us toll-free, 1-800-673-2514. WellSpan EAP will refer you to a participating provider near you.
