COVID-19 Testing and Inquiries about Your Employees Ability to Work

The health and safety of our community and your workforce is of the utmost importance. As part of our continued support for you, your employees and your organization during COVID-19, we are sharing scenarios that contain WellSpan Health's recommended assessment and treatment protocols.

Scenario 1

If you or your employee is exhibiting coronavirus symptoms (a fever with a cough or shortness of breath):

- Take an online screening assessment or call for a phone assessment.
 - Use the Coronavirus Online Assessment Tool available at [WellSpan.org/Coronavirus](https://www.wellspan.org/Coronavirus). Click on the red alert banner and complete the Coronavirus Assessment Tool by clicking on the following image:
 - Call your primary care provider. If you don't have a primary care provider, you can call WellSpan's Coronavirus Information Hotline toll-free at (855) 851-3641.
- Following your screening, you may be directed to one of WellSpan's open air testing locations in our communities. A referral is needed by a health care provider in order to get tested at one of WellSpan's open air testing locations.
- Do not visit doctors' offices, urgent care locations or hospital emergency departments, unless you are experiencing a serious health issue. If you are experiencing a healthcare emergency – such as heart attack, stroke or major traumatic injury – please call 911.

Scenario 2

If you or your employee are sick and **do not** have a fever, we encourage the use of online (telehealth) urgent care visit through your health plan provider or go to [WellSpanOnlineUrgentCare.org](https://www.wellspan.org/WellSpanOnlineUrgentCare.org). At this time, we want to limit visits to doctors' offices, urgent care locations or hospital emergency departments to accommodate and treat serious health conditions.

Scenario 3

If you or your employee have recently been sick, have seen and been treated by a provider, and are now looking for a return to work note, please contact your treating provider to obtain a note.

Be assured, as your trusted partner, we will meet this challenge head-on. And we will do it together as one community, united. Learn more at: [WellSpan.org/Coronavirus/Resources-for-Employers](https://www.wellspan.org/Coronavirus/Resources-for-Employers).
