

## Keeping your employees *well at work.*

### ONSITE AND NEAR-SITE CLINICS

When you partner with WellSpan Well at Work, you can choose to have your employees receive quality health care from a permanent, WellSpan onsite clinic; have WellSpan provide onsite care when you need it; or utilize nearby WellSpan locations.

All services and location options focus on helping you get and keep your employees healthy. WellSpan can even work with you to find the payment, billing or insurance arrangement that works best for you and your employees.

### HELPING CONTROL HEALTH CARE COSTS

WellSpan Well at Work can also help you better understand the overall health of your teams and the financial impact of employee health issues, so you can better manage the cost of health care. We can also help you integrate tailored program initiatives to address the current health care issues of your employees, to analyze, focus on and improve the overall health of your workforce.

As always, we'll help you choose the level of clinical service that fits your organization's health goals.

## ONSITE HEALTH CARE

WellSpan can customize and offer health care directly at your organization's location, providing a great way for you to help your employees stay healthy, without them ever having to leave work. By offering onsite care, you can help reduce your health insurance costs by decreasing health insurance claims and identifying illnesses early, preventing future costly complications.

We can establish an Onsite Clinic, operating at established hours that you request, or we can provide Onsite Health Care on an as-needed, on-demand basis. You choose what works best for you:

### **Onsite Clinics**

WellSpan-staffed onsite clinics are provided at your organization's location and customized to fit your needs. Clinics can be open for your employees, on a walk-in basis, from one day per week to every day. WellSpan can manage your existing clinic or set up a new one. We can even arrange for telemedicine or virtual visits for convenient online care 24/7. We want to hear exactly what will work best for your organization and goals.

### **Onsite Clinical Health Care Services**

WellSpan can provide clinical health services onsite, as needed by your organization. You can arrange for group physicals, OSHA-required vaccines, flu shots and more. We'll come onsite to your location at times convenient for you and your employees.

### **Similar to urgent care visits, WellSpan Onsite Clinics and Healthcare Services can provide:**

- Acute Care
- Biometric Screenings
- Blood Pressure and Blood Sugar Screenings
- Employee Health/Occupational Health Clinics
- Flu Shot Clinics
- Injury Prevention Classes & Evaluations
- Lab Work
- Drug and Alcohol Testing
- Wellness Coaching
- Injury Treatment

## NEAR-SITE CLINICS

WellSpan can also treat work-related injuries that are non-life threatening at WellSpan Urgent Care locations. By adding WellSpan locations near you to your workers' compensation panel of preferred physicians and locations, you can ensure that your employees can conveniently visit these locations. WellSpan's emergency rooms are also available to your employees if needed. Follow-ups will be referred to WellSpan Occupational Health or the location of choice based on your panel. Your organization can also utilize conveniently located WellSpan offices, including primary and specialty care practices and labs.
