A proud heritage. A promising future.
A decade of caring for the community.
Be proud of what you’ve helped accomplish.

This year marks the 10th anniversary of the York Health Foundation. And thanks to donors like you, we’ve already accomplished so much. With your contributions, we’ve helped countless families, created world-class healthcare resources and made our community a healthier place to live, work and play.

The upcoming pages provide just a snapshot of our initiatives, which we hope to grow year after year, creating a brighter tomorrow for generations to come. Together, we’re building a strong tradition, while realizing an even more promising future ahead.
During the past decade, the power of philanthropy at the York Health Foundation has touched nearly every corner of our community. From funding the HealthConnect van to reaching out to children and families who have no regular family doctor to caring for the tiniest patients in the Neonatal Intensive Care Unit at York Hospital, to providing subsidized prescriptions at the Healthy Community Pharmacy, WellSpan’s philanthropic organization has spent 10 years building a healthier York County.

In this report, we recognize the Foundation’s top accomplishments over the last 10 years. The report profiles some special volunteers who were an integral part of the creation of the York Health Foundation; our largest fundraising project, which is enhancing the education of hundreds of physicians and attracting the best and brightest to York Hospital; and, a patient who has depended on the financial support of the Cancer Patient Help Fund as a lifeline, one of 400 patients and families the Fund assists each year.

“Our donors have been making a difference for a decade”

The York Health Foundation could not accomplish these tasks without the thousands of donors who support it every year, the hundreds of volunteers who provide their time and talents, and our past and present board members. Your generosity is helping patients receive excellent care when they need it, and helping the entire community become healthier. For that, we thank you. Please look at page 37 to see the group of special donors who have supported the York Health Foundation each of our 10 years. We thank these and all of our donors, who have made tremendous progress possible over the past decade.

I have been fortunate to be involved with the Foundation and WellSpan for more than 20 years and I’ve seen our accomplishments help the community. Many challenges face healthcare ahead, as more patients depend on WellSpan for their care. I’m confident that together, we will continue to meet the needs of the community. The York Health Foundation will be there to help our family, friends and neighbors, and to make our community a healthier place to work, live, and play for many years to come.

Leslie W. Brant
Chairman, Board of Directors
York Health Foundation
Whenever I had a need, they were there for me. I could say thank you a million times and it wouldn’t be enough.” – Utrena Woodard
It only took a few minutes and a few spreadsheets to convince Dick Pugh that a great need was largely going unmet.

"I was invited to a meeting with WellSpan’s chief financial officer in 2001 and he laid out the system's financial statements as well as the amount of uncompensated care York Hospital was providing to the community – it was significant," says Pugh, the now-retired CEO and chairman of Drovers Bank (now Fulton Bank).

"It was immediately clear there was a need for increased philanthropic support for the great programs and services provided by WellSpan in the York community – services that already existed and services that could exist if the fundraising support was there. I was convinced that the time was right to create a mechanism to garner that support."

At WellSpan’s request, Pugh agreed to form a committee of community leaders and physicians. It was from that small committee that the York Health Foundation was born. Pugh would be its first chairman.

"From the beginning, the Foundation’s mission was to improve the health of the community," says Pugh, who served as board chairman until 2006 and remains active with the foundation. "It’s a mission from which we have never strayed."

Promising to fund the best resources and services possible.

In just a decade of existence, the Foundation has raised more than $27 million. Funds donated by individuals and organizations alike have supported a host of local healthcare initiatives, including the York Hospital Community Health Center, the HealthConnect mobile healthcare program, and the Hoodner Dental Center to name just a few. Thanks to the Foundation, thousands of underserved patients have access to quality health and dental care they otherwise might not receive.

"One thing about the Foundation is that it supports very tangible, very visible projects… things that directly improve people’s health," says Barbara Linder, past president of the York Hospital Auxiliary and one of the Foundation’s first board members.

"When I was asked to be a part of the Foundation it was an easy thing to say yes to," remembers Linder, who is still active with the Foundation as a current member and chair of the donor relations committee. "Everyone involved with the Foundation is working toward the same purpose. As a group, we keep improving every year."

Both Linder and Pugh comment on the “spirit” that surrounds the Foundation.

"Everyone here is very conscious of doing what’s right…they’re very committed to making sure that the kind of support the community needs is available today and in the future," says Pugh. "It’s an honor to be a part of it."
Other Important Initiatives

Thanks to the generosity of the community, the York Health Foundation has been able to support many important projects and initiatives over the past 10 years. Some of the most notable include:

**Community Health Projects**
- The HealthConnect Van, which travels throughout York and Adams counties to provide basic medical care to children and families has had more than 13,600 patient visits since it started in 1999
- The Healthy York Network, which opened in 2003 and served 2,600 patients in its first year and more than 6,000 patients in 2010
- The Healthy Community Pharmacy, which has provided more than 271,250 subsidized prescriptions since it opened in 2004
- The Hoodner Dental Center, which has had nearly 30,000 patient visits since it opened in 2005
- Renovations of the York Hospital Community Health Center in 2009, which expanded its capacity to see an additional 1,500 patients over two years

**Advancing Clinical Care**
- The Kinsley Medical Simulation Center, which supports medical education in the community by providing simulated patient care experiences to physicians, nurses, and allied health professionals
- WellSpan Medical Group’s enhanced implementation of electronic health records, which allows providers throughout the system to share information
- The Medical Education Pavilion at York Hospital, which allows for local and regional medical education programming and meetings
- The Visiting Nurses Association’s purchase of telehealth monitors, important pieces of equipment that permit patients to stay in the comfort of their own homes, while nurses can monitor their vital statistics

**Excellence**
- The Atrium Café, which was funded by the York Hospital Auxiliary
- The children’s area at York Hospital, which was funded by a planned gift
- The York/Adams community becomes one of only 17 in the country to participate in the Aligning Forces for Quality initiative, which aims to improve care for those with chronic conditions
- The York Hospital Commons and Meditation Garden, which is a quiet place for patients and their families to talk and reflect

---

Caring Donors Prove the Power of Philanthropy

To see the power of philanthropy, look no further than the gleaming, new Medical Education Pavilion on the York Hospital campus. In 2007, the York Health Foundation launched a fundraising campaign for the Pavilion. Local physicians and community members immediately rallied to support the project, recognizing the important role medical education plays in the region.

“There was a strong understanding among York physicians and the community that this project was needed,” says John McConville, M.D., who served as co-chair of the York Health Foundation’s Medical Education special gifts initiative, along with George Hodges.

One of the campaign’s early supporters was Art Glatfelter, founder and chairman of Glatfelter Insurance Group, who made a $1 million testamentary pledge. The pledge was in the form of a challenge grant, meaning it was contingent on York physicians collectively donating $1 million. The physicians gave generously, surpassing the challenge and raising $1.2 million. In addition, many individual donors in the community stepped forward to help.

“During the fundraising campaign, the York Health Foundation emphasized the important role that medical education plays and the impact it has on the region. Currently, more than 120 residents receive their training in eight different programs at York Hospital, ranging from internal medicine to dentistry to emergency medicine. The Pavilion helps attract – and keep – these physicians in York, which benefits area patients and their families.

According to McConville, the retired chair of medicine at York Hospital, projects such as the Pavilion wouldn’t be possible without the philanthropic support of donors.

“York Hospital has long been one of the leading community hospitals in the nation when it comes to medical education,” he says. “The purpose behind this building was to maintain that leadership position and continue to attract the best and brightest young medical professionals to York, all while keeping the current staff well educated and trained.

“It was critical for the Foundation to articulate to doctors and the community why we needed this building and the direct impact it would have on our region,” he adds, “and I think we succeeded.”

Opened in 2010, the $7.2 million Pavilion is an important tool for training the healthcare providers of today and tomorrow. The Pavilion is just one of the many projects and services supported by the York Health Foundation. The Foundation leadership is thankful for the many donors and volunteers who made its fundraising efforts a success.

---

John McConville, M.D.
Our caring donors have unique reasons for getting involved with philanthropy in the community through the York Health Foundation. The different ways you can contribute and join your family, friends, colleagues and neighbors to provide the highest level of healthcare for our community include:

**Kids First Campaign**
A grass-roots community campaign organized to help provide support to uninsured and underinsured children through programs like the HealthConnect van, Bentzel and Hoodner Dental Centers, York Hospital Community Health Center and the Neonatal Intensive Care Unit (NICU) at York Hospital.

**Lectureships**
Lectureships are an educational opportunity for current physicians, residents, and community members to learn about specific advances in healthcare, and to bring national, regional, and statewide experts to York.

**Employee and Physician Giving Campaigns**
The generous support the Foundation receives from our colleagues at WellSpan shows that employees and physicians are both giving and caring to our community.

**Memorial and Honor Gifts**
Tributes to loved ones are a significant way that donors connect with our programs. The proceeds received from these gifts help our organization continue to provide excellent care.

**Special Events**
- Double Creek Tour and Run
- WellSpan Golf Tournament
- VNA Toast from our Town
- VNA Tree of Light
- VNA Evening of Monopoly
- Cancer Center Bike Hike
- York Hospital Auxiliary Book Nook Bonanza
- WellSpan Charity Ride
- Kids First Miniature Golf Tournament

**York Hospital Auxiliary**
The York Hospital Auxiliary is a volunteer organization that provides a vital link between York Hospital and the York community. The York Hospital Auxiliary is a dedicated community volunteer organization which supports the York Hospital and the people it serves by advocating for improved community health through innovative programs, preventative education, community partnerships, and fundraising.
We extend our sincere appreciation for the following gifts received from the date of our last Annual Report, July 1, 2008 to December 31, 2010. Every effort has been made to ensure accuracy in listing all contributions of $100 or more. If you are aware of any error or omission, please call the York Health Foundation at 717-851-3595.

“The work of the York Health Foundation in promoting philanthropy for the York-based entities of WellSpan Health helps to make possible millions of dollars in charitable care for those in need, special programs like the Cancer Patient Help Fund which would not otherwise exist, and needed capital improvements like the new medical education facility at York Hospital. The Foundation has a profoundly positive effect on patients and their families, as well as on the provider community. By working together through the Foundation, all those who support WellSpan’s charitable efforts achieve a common result for the community that is far greater than the sum of its parts.”

“Since being directly involved with WellSpan in the delivery of healthcare, I have been very impressed with the long-term, ongoing commitment to the community. It is inspirational to see the dedication of the WellSpan staff, and continuing that dedication by outreach to the community through the York Health Foundation in so many needed areas. I wanted to be part of those important efforts by being a donor.”

Deceased

"I have given through the years to sponsor several of your wonderful events such as Double Creek because the events themselves are fun and bring our community together, but most importantly, because of the programs the funds will help sponsor. I have always been touched by the different health care needs the Foundation is always trying to meet in our community, and feel it is important to try and help in whatever way we can. I will admit that I have a special place in my heart to help our children. I had worked for many years as a pediatric oncology nurse so I know the importance of being able to offer programs to help our children and their families."

“It is a privilege for us to be able to give back to our community through the Kids First Campaign. Without these fundraising efforts, many local children would go without access to quality health care.”

~ Matt and Jennifer Doran

York Health Foundation 10th Anniversary Donor Report | Gifts from July 1, 2008 to December 31, 2010
York Health Foundation 10th Anniversary Donor Report | Gifts from July 1, 2008 to December 31, 2010
This elite group of donors has generously given in each of the 10 years the York Health Foundation has been in existence. This group’s support has helped patients receive quality, coordinated healthcare in the York community for a decade. On behalf of the York Health Foundation and WellSpan Health, thank you for your loyalty to our mission.
The 1880 Society, named in honor of the year York Hospital’s founding, is a special annual giving program. Friends of York Hospital, VNA Home Care, WellSpan Medical Group and the York Cancer Center give $10,000 or more, payable over a 10-year period. These gifts can be designated to a specific department or program or be unrestricted to ensure continued excellent care throughout the healthcare system. The reputation of WellSpan Health would make its founders very proud. While today’s healthcare system faces many challenges, 1880 Society members ensure that quality care is provided to the York community.

“`My wife Katie and I have lived in York all of our lives and have worked for York Hospital for many years which gives us a unique perspective as both a member of the community and employee. The Employee Giving Campaign allows us the opportunity to support many worthy causes which have a direct impact on our patients and their families and often times would not be possible without the generosity of our fellow employees. Furthermore, it is an opportunity for us to give back to the community and York Hospital for the impact they have had on our lives over the years.”

– Tim and Katie Bentzel
Corporate Partners

The York Health Foundation gratefully acknowledges the individuals, corporations and foundations listed who have given so generously in order to help the York Hospital, York Cancer Center, WellSpan Medical Group and VNA Home Care achieve their mission. Their support has enabled our staff and volunteers to continue to provide excellent patient care. It also provides for indigent care, education, and technology that are part of the trusted healthcare we provide throughout south central Pennsylvania.

We extend our sincere appreciation for the following gifts received from July 1, 2008 to December 31, 2010. Every effort has been made to ensure accuracy in listing all contributions of $100 or more. If you are aware of any error or omission, please call the York Health Foundation at 717-851-3595.

Samuel Small Society Members

In 1880, a man named Samuel Small had a vision of providing compassionate, quality healthcare services for the York community. His vision and philanthropic spirit initiated the forming of York Hospital. If not for his effort and foresight, the organization of WellSpan Health, dedicated to bring clinical excellence and care to its communities and recognized as a leader in health care, might not exist today.

The members of the Samuel Small Society share that spirit and vision in wanting to ensure quality healthcare is available to all in our community for generations to come. By providing for the future health care needs, they have included the York Health Foundation in their financial or estate plans.

“York Hospital has a rich tradition of excellence in medical education. The York Health Foundation, through its philanthropic efforts, has made it possible for York Hospital to develop a state-of-the-art simulation center which will have a major impact on competency-based training and improved patient safety. I am proud to be part of such an outstanding health system which impacts so many members of our community in such a positive way.”

York Health Foundation 10th Anniversary Donor Report
Anna Huber Legacy Society

Anna Huber Legacy Society was created to recognize individuals who have provided for the future of the VNA through their financial or estate plan. The Society is named in honor of the founder of VNA Home Care, Anna M. L. Huber. Ms. Huber, born in 1874, began a long and dedicated campaign to improve York’s community health care for all its residents. In 1908, the first visiting nurse began practicing in York. Anna Huber became the VNA’s first president and served in that role for 48 years.
